# Notes

Ventilux cannot be held responsible for any errors or omissions, based on the information received. Please check the quantities, drawings & product specifications are correct, as corrections after products have been delivered cannot be rectified without additional cost being incurred.

The quotation is valid for 3 months and thereafter subject to review. Quotes for complete and replacement components for Central Battery Systems/Static Inverters are quoted on an Ex works basis, delivery can be quoted upon request.

For addressable systems (DALI/DALI Wireless/N5XP) and CBS projects, Ventilux would require a completed post installation / pre commissioning checklist returned to them before our engineers can attend site.

VENTILUX offer to take back any WEEE (Waste Electrical and Electronic Equipment) which arises from products sold by VENTILUX Ltd. after June 2005, or, arising from any end-of-life product (from any manufacturer) for which a like- for-like replacement is being purchased from VENTILUX.
